

Workshop on
Linking Carbon Markets

23. March 2009

10.00-17.30

Paris

Venue: IDDRI-Science Po

Salle du Conseil (5th floor)
13 rue de l'université
75007 Paris

Organized by

Climate Strategies aims to assist government in solving the collective action problem of climate change. Sponsors include departments from European government and other stakeholders

www.climatestrategies.org

Objectives of the workshop

The workshop is part of a project carried out within the Climate Strategies network. The workshop will bring together researchers and stakeholders in order to...

- Discuss the results of a Climate Strategies project on linking national ETS <http://www.joanneum.at/climate/linking/> (including Japan, Australia, New Zealand Canada and the US). Based on country case studies, the barriers and prospects for different types of links have been assessed for these countries. (Draft synthesis report: See: <http://www.climatestrategies.org/>)
- Discuss the inclusion of new market mechanisms for developing countries into the post 2012 Global Carbon market, including the question of the institutional framework of the post 2012 Carbon Market.
- Discuss issues for phase 2 of the Climate Strategies project on linking
