

# The role of public-private partnerships in enhancing the transfer and diffusion of climate technologies

**Ahmed Abdel-Latif**

Senior Programme Manager

Innovation, Technology and Intellectual Property

**Global Climate Policy Conference 2015**

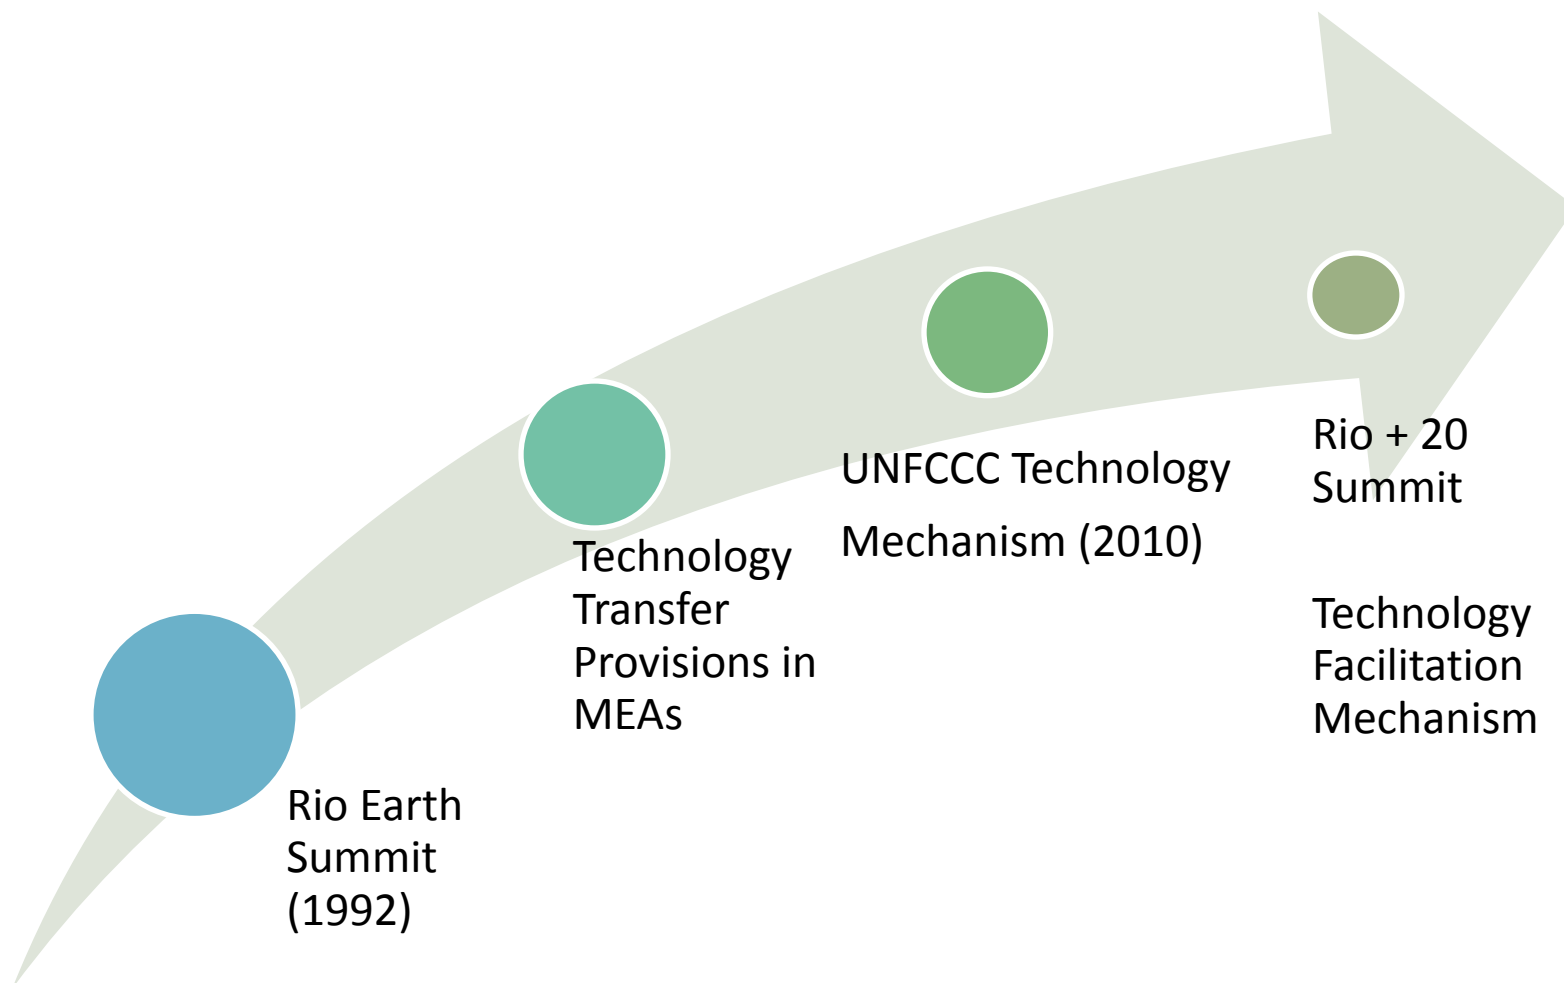

**Climate Strategies and the Stanley Foundation**

**New Delhi**

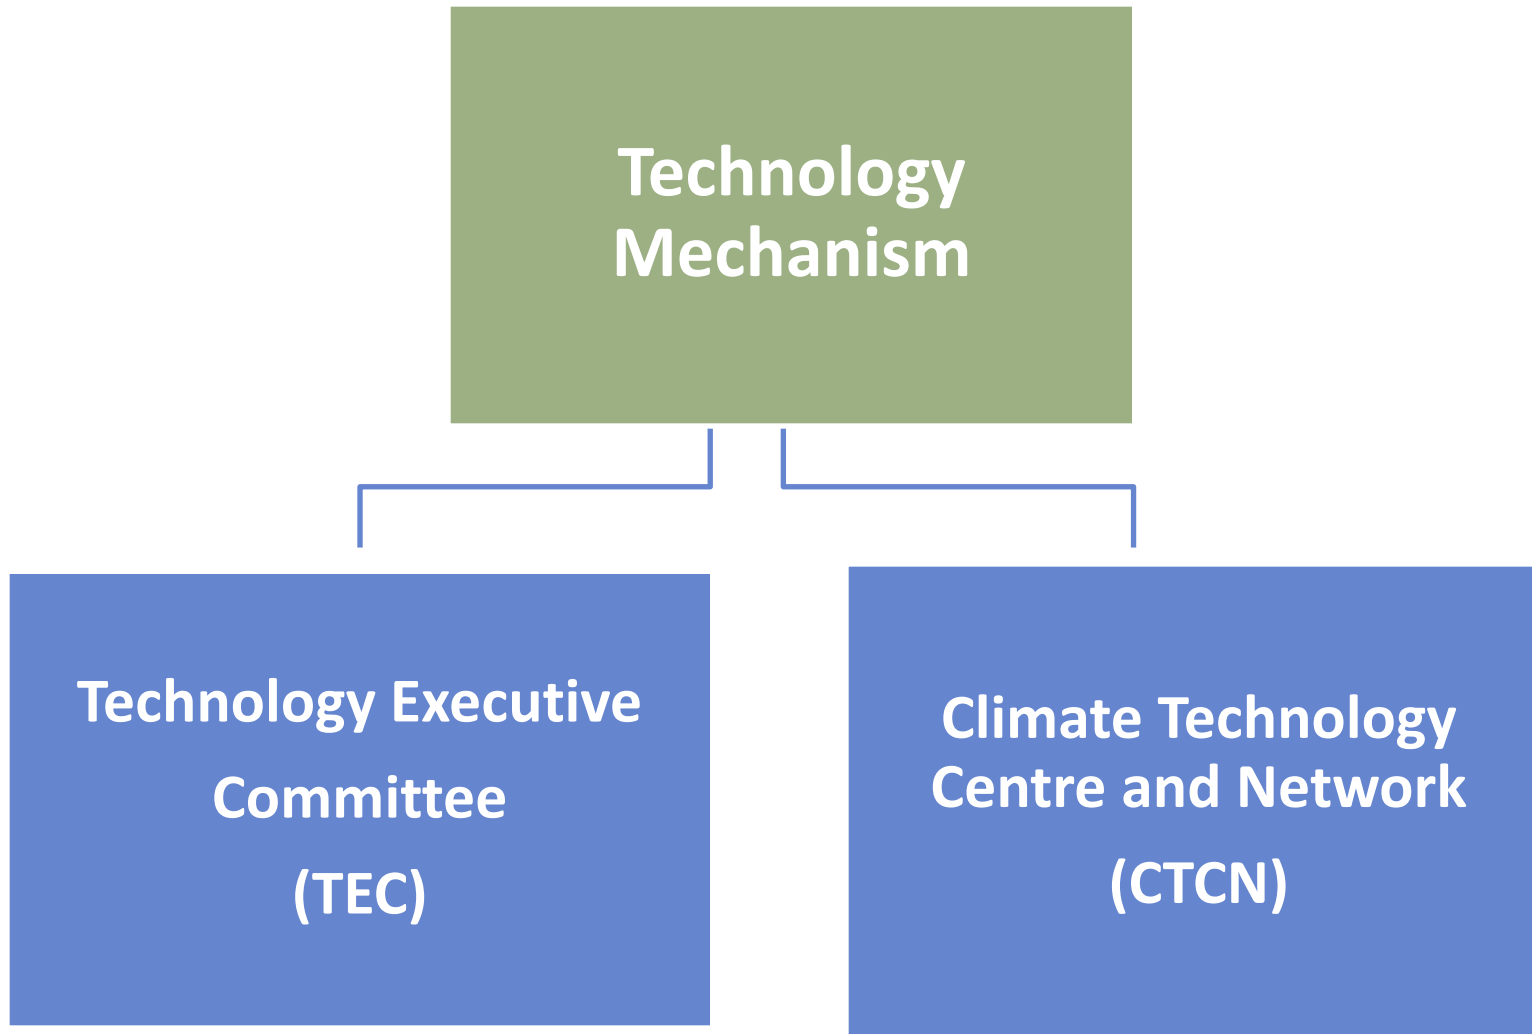

**30<sup>th</sup> April-1<sup>st</sup> May**

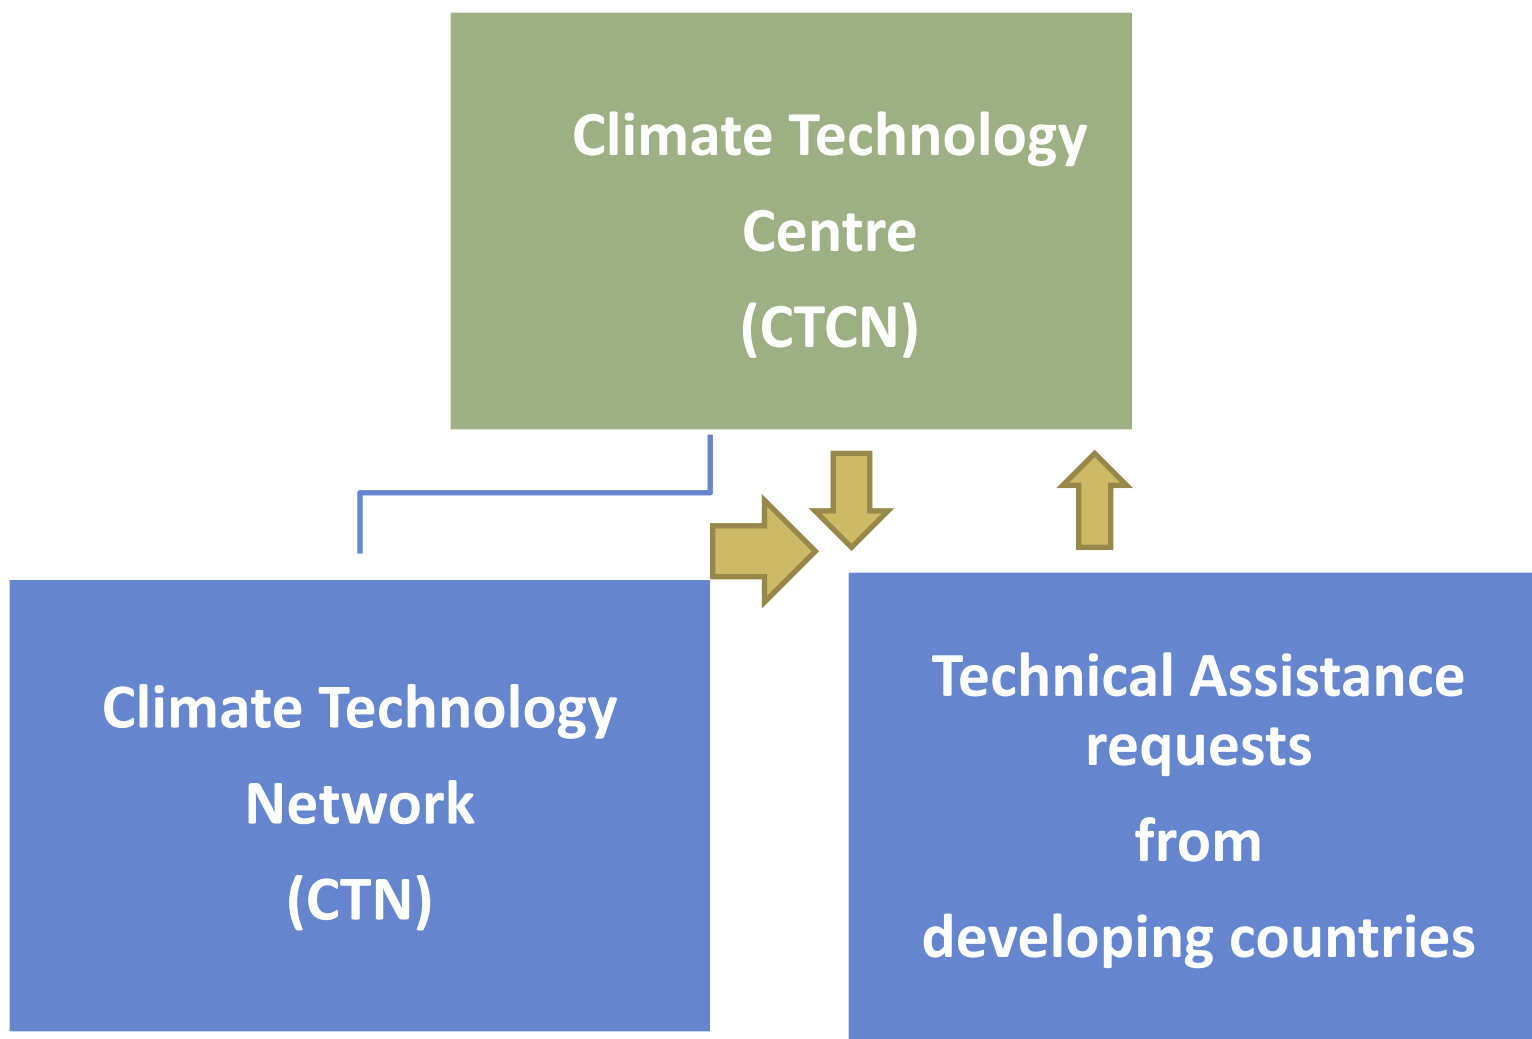

## The evolution of technology transfer for environmental sound technologies at the multilateral level

## UNFCCC Technology Mechanism

## The Climate Technology Centre and Network (CTCN)

# PPPs in the mandate of the UNFCCC Technology Mechanism

## TEC mandate

**Promote and facilitate collaboration on the development and transfer of technology for mitigation and adaptation between governments, the private sector, non-profit organizations and academic and research communities;**

## CTCN mandate

- **Stimulate and encourage, through collaboration with the private sector, public institutions, academia and research institutions, the development and transfer of existing and emerging environmentally sound technologies, as well as opportunities for North/South, South/South and triangular technology cooperation;**
- **Facilitate a Network of national, regional, sectoral and international technology centres, networks, organizations and initiatives with a view to:**
  - (ii) **Facilitating international partnerships among public and private stakeholders to accelerate the innovation and diffusion of environmentally sound technologies to developing country Parties**

## Diversity of partnerships : bilateral/multilateral

## Challenges facing PPPs: 1) Diversity of climate technologies

## Challenges facing PPPs: 2) Difference country needs and circumstances

## Challenges facing PPPs: 3) Governance arrangements

## Challenges facing PPPs:

### 4) Interface with multilateral framework (UNFCCC, Paris Agreement) ?
