

## LESS TALK MORE AGREEMENT: HOW RESEARCH CAN HELP UNBLOCK A CLIMATE DEAL

*Side Event at SBs 40, Bonn*

Co-hosted by

Thursday, **12.06.2014**, 13:15 – 14:45 Room Metro, Ministry of Transport, Bonn

### Preliminary Agenda

*This event will discuss the outcomes of the first Global Climate Policy Conference that was held in London on May 7<sup>th</sup> and 8<sup>th</sup>. This conference brought together researchers and analysts from academia and think-tanks, together with negotiators and other practitioners with the aim to identify new economic, social and political ideas and analysis to help move things forward. Six sessions covered issues such as: green growth, equity, finance, links between adaptation and mitigation, reducing emissions through clubs.*

Event summary: <http://climatestrategies.org/research/current-projects/climate-a-development-knowledge-network-cdkn.html>.

*There will be a post-conference publication, available by late summer 2014.*

The side event will be chaired by **Ari Huhtala** of CDKN

Confirmed speakers include:

**Heleen de Coninck** of Radboud University and Climate Strategies: Summary and reflection from the conference discussions

**Jose Alberto Garibaldi** of Energeia: How mitigation and adaptation packages should secure finance?

**Xiaohua Zhang** of NCCC in China: Reflections on CBDR in 2015 agreement

**Carlos Jesús Rossi Covarrubias** of MFA in Peru: Managing GHG impacts through public-private technology pools

The presentations will be followed by discussion aimed at finding answers to two questions:

1. What research ideas are the most innovative and of relevance to facilitate advances in the climate negotiations and the broader climate arena?
2. What are the questions/research gaps to be addressed in the next 12 months but also longer term?
